Access to Rapid Testing for our school community

Members of households, childcare or support bubbles of pupils, students and staff of schools, nurseries and colleges

If you're a member of a household, childcare bubble of a pupil, student or staff of a school, nursery or college, you can get a twice-weekly test:

- through your employer if they offer testing to employees
- at a local test site (Birstall)
- by collecting a home test kit from a test site (Birstall)
- by ordering a home test kit online

Collect test kits

You can collect 2 packs of home test kits at a local collection point, (Birstall). Each pack contains 7 tests.

Anyone 18 or over can collect.

Most collection points are open from 1.30pm to 7pm. You can check online if the location is open or busy before you go. You do not need to make an appointment.

Do not visit a collection point outside opening hours, as it may be used to test people with coronavirus symptoms outside these times.

Find your nearest home test kit collection point.

Order home test kits online

You can order 1 pack of home test kits containing 7 tests for home delivery. Your tests should arrive within 2 days.

Order rapid lateral flow home test kits

What twice-weekly testing involves

You will be asked to:

- take a test twice a week (every 3 or 4 days apart)
- report every result to NHS Test and Trace on the same day you take the test

<u>Report your test result online</u> or by calling 119.

If anyone tests positive or gets coronavirus symptoms, they should:

- self-isolate immediately
- get a PCR test to confirm the result
- follow the <u>stay at home guidance for households with possible</u> <u>coronavirus infection</u>

Pupils, students and staff should also tell their school or college if they test positive.

A negative result means the test did not find signs of coronavirus. But this does not guarantee you do not have coronavirus, so you should keep following all <u>coronavirus advice</u> including:

- regular handwashing
- social distancing
- wearing a face covering where recommended
