Dear Parents/Carers,

RE: face mask rules

Thank you for your amazing support, keeping each other safe, wearing masks when dropping off and picking up your child(ren) at school.

We recently received correspondence from the local authority informing us that the mask wearing restrictions can be lifted when entering the school grounds (see attached letter).

However, we would greatly appreciate your support in still wearing masks in restricted spaces within the drop off/pick up zones where social distancing is not possible i.e. when coming through the small gates or where pathways are narrow.

Please could you still wear masks when speaking to members of staff or when entering the school building (*Please note: any meetings or access into the school building must be with prior arrangement*).

National and local guidance on wearing masks, hand washing and social distancing when appropriate are still in place.

Thank you once again for your continued support.

Kindest regards,

Mrs Balsara
